Data Repository

Table DR1. Sample locations and modal mineral assemblages
Table DR2. Analytical data of electron microprobe analyses: reference materials, analytical lines and mean detection limits (in wt. %)
Table DR3. Composition of representative rock-forming minerals
Table DR4. Whole-rock major and trace element data
Table DR5. Previously published geochemical data from Ventersdorp Supergroup
Table DR6. Baddeleyite ID-TIMS U-Pb isotopic data
Table DR7. Baddeleyite LA-ICP-MS U-Pb isotopic data for Phalaborwa reference material
Table DR8. Baddeleyite LA-ICP-MS U-Pb isotopic data for sample VJ1
Table DR9. Compilation of crystallization ages of rocks obtained by U-Pb geochronology of zircon and baddeleyite
Table DR10. Compilation of detrital zircons from the Postmasburg, Olifantskloof, Pretoria groups and Ventersdorp Supergroup
