Independent Auditor's Report

Council and Board of Trustees
The Geological Society of America, Inc. and
The Geological Society of America Foundation, Inc.
Boulder, Colorado

Report on the Financial Statements

We have audited the accompanying combined financial statements of The Geological Society of America, Inc. and The Geological Society of America Foundation, Inc. (nonprofit organizations), which comprise the combined statements of financial position as of June 30, 2021 and 2020, and the related combined statements of activities, changes in net assets, and cash flows for the years then ended, and the related notes to the combined financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these combined financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of combined financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these combined financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the combined financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the combined financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Organization's preparation and fair presentation of the combined financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the combined financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independent Auditor's Report (continued)

Opinion

In our opinion, the combined financial statements referred to above present fairly, in all material respects, the financial position of The Geological Society of America, Inc. and The Geological Society of America Foundation, Inc. as of June 30, 2021 and 2020, and the changes in its net assets and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters: Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the combined financial statements as a whole. The accompanying supplemental combining statements of financial position, activities, and changes in net assets are presented for purposes of additional analysis of the combined financial statements rather than to present the financial position, activities, changes in net assets of the individual organizations, and are not a required part of the combined financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the combined financial statements.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the combined financial statements. The information has been subjected to the auditing procedures applied in the audit of the combined financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the combined financial statements or the combined financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 4, 2021, on our consideration of The Geological Society of America, Inc.'s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering The Geological Society of America, Inc.'s internal control over financial reporting and compliance.

Notes to Combined Financial Statements

June 30, 2021 and 2020

Note 1 – Summary of Significant Accounting Policies

Organization and Activities. The Geological Society of America, Inc. (the "Society") was incorporated in 1929 to advance the geosciences, to enhance the professional growth of its members, and to promote the geosciences in the service of humankind. The Society's programs include publishing and distributing scientific literature, awarding research grants, sponsoring scientific meetings, providing information and materials for primary level science education and furnishing information to the public about earth science education and the environment. The Society is governed by a board of directors (the Council) elected by the Society's members.

The Geological Society of America Foundation, Inc. (the "Foundation") was founded in 1980 to provide endowment and fundraising resources to advance the mission of the Society. The majority of the Foundation's support and revenue is derived from contributions and investment income. The Foundation is governed by a Board of Trustees appointed by the Board itself from a list of candidates approved by the Council of the Society and the Foundation cannot change certain portions of its governing documents without the approval of the Society.

Basis of Presentation. The accompanying combined financial statements include the accounts of The Geological Society of America, Inc. and The Geological Society of America Foundation, Inc. (collectively "the Organization"). The financial statements have been combined due to the significant related party economic interests that exist between the organizations. Intercompany accounts and transactions have been eliminated in combination and the combined organizations are not a separate legal entity.

Basis of Accounting. The financial statements of the Organization have been prepared on the accrual basis of accounting and, accordingly, reflect all significant receivables, payables, and other liabilities.

Changes in Accounting Principles. On July 1, 2020, the Organization adopted Financial Accounting Standards Board ("FASB") Accounting Standards Update ("ASU") No. 2014-09 (Topic 606) - *Revenue from Contracts With Customers*, which provides guidance for revenue recognition that superseded previous guidance. Under ASU 2014-09, revenue is recognized when promised goods or services are transferred to customers in an amount that reflects the consideration to which the Organization expects to be entitled in exchange for those goods and services. The Organization adopted ASU 2014-09 under the modified retrospective approach, applying the amendments to prospective reporting periods. Results from reporting periods beginning after July 1, 2020, are presented under Topic 606, while prior period amounts are not adjusted and continue to be reported in accordance with previous guidance. The adoption would not have had any material effect on the change in net assets for the year ended June 30, 2020, or on net assets as of June 30, 2020.

The Geological Society of America, Inc. and The Geological Society of America Foundation, Inc.

Notes to Combined Financial Statements

June 30, 2021 and 2020

Note 1 – Summary of Significant Accounting Policies (continued)

On July 1, 2020, the Organization adopted FASB ASU No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement*, which modifies the disclosure requirements on fair value measurements in FASB ASC 820. The amendments in ASU 2018-13 are effective for fiscal years beginning after December 15, 2019. Certain amendments in ASU 2018-13 are applied prospectively and all others are applied retrospectively. The adoption would not have had any material effect on the change in net assets for the year ended June 30, 2020, or on net assets as of June 30, 2020.

Future Accounting Pronouncement. In February 2016, the FASB issued amended guidance for the treatment of leases. The guidance requires lessees to recognize a right-of-use asset and a corresponding lease liability for all operating and finance leases with lease terms greater than one year. The guidance also requires both qualitative and quantitative disclosures regarding the nature of the entity's leasing activities. The guidance will initially be applied using a modified retrospective approach. The amendments in the guidance are effective for fiscal years beginning after December 15, 2021.

Management is evaluating the impact of the new accounting pronouncement on the Organization's financial statements.

The Organization is required to report information regarding financial position and activities according to two classes of net assets:

Net Assets Without Donor Restrictions. Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the organization. These net assets may be used at the discretion of the Organization's management and the board of directors.

Net Assets With Donor Restrictions. Net assets subject to stipulations imposed by donors, and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Organization or by the passage of time. Other donor restrictions are perpetual in nature, where by the donor has stipulated the funds be maintained in perpetuity.

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents and Concentration. The Organization considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents, unless held for reinvestment as part of the investment portfolio or otherwise encumbered. The Organization has cash balances in excess of federally insured limits periodically throughout the fiscal year.

The Geological Society of America, Inc. and The Geological Society of America Foundation, Inc.

Notes to Combined Financial Statements

June 30, 2021 and 2020

Note 1 – Summary of Significant Accounting Policies (continued)

Investments. The Organization's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Organization's valuation policies utilizing information provided by the investment advisors and custodians. See fair value measurements below.

Unrealized gains and losses are included in the change in net assets in the accompanying statements of activities. Investment income and gains restricted by donors are reported as increases in net assets without donor restrictions if the restrictions are met (either a stipulated time period ends or a purpose restriction is accomplished) in the reporting period in which the income and gains are recognized.

Investments related to the balances of net assets with donor restrictions are segregated in the statements of financial position.

Fair Value Measurements. The Organization reports using fair value measurements, which among other things requires enhanced disclosures about investments that are measured and reported at fair value and establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Organization has the ability to access.

- Level 2 Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Geological Society of America, Inc. and The Geological Society of America Foundation, Inc.

Notes to Combined Financial Statements

June 30, 2021 and 2020

Note 1 – Summary of Significant Accounting Policies (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2021 and 2020.

Mutual Funds and Money Market Funds. Valued at the quoted prices in active markets for identical assets held by the Organization at year end.

Pooled Private Investment Company, Limited Partnership and Real Estate Funds. Valued at the NAV, without adjustment, of units held by the Organization at year-end. The NAV, as provided by the investment managers, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the Fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Private Equity Portfolio. Portfolios primarily are invested in private equity limited partnerships. Investments are valued at NAV, without adjustment, as reported by their underlying investment manager. The portfolios also invest in total return swaps that are valued based upon the underlying investment's NAV, without adjustment. In the event that the Organization is unable to obtain the value of any portfolio investment from the applicable investment manager, the fair value of such portfolio investment shall be determined by the investment general partner, subject to approval by the advisory board of the investment fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Organization believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In general, investments are exposed to various risks, such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect the investment balances and the amounts reported in the statements of financial position.

Accounts Receivable. Accounts receivable include administrative fees and reimbursable costs due on federal grant agreements and amounts due from sales of the Organization's products and services. At the time accounts receivable are originated, the Organization considers an allowance for doubtful accounts based on the creditworthiness of the customer. The allowance is continually reviewed and adjusted to maintain the allowance at a level considered adequate to cover future uncollectible amounts.

The allowance is management's best estimate of uncollectible amounts and is determined based on historical performance that is tracked by the Organization on an ongoing basis. The Organization has recorded allowances of \$44,620 at June 30, 2021 and 2020, respectively.

The Geological Society of America, Inc. and The Geological Society of America Foundation, Inc.

Notes to Combined Financial Statements

June 30, 2021 and 2020

Note 1 – Summary of Significant Accounting Policies (continued)

Contributions Receivable. Contributions receivable are recorded at their net realizable value. Contributions receivable expected to be collected in future years are recorded at net present value. The discounts on those amounts are computed using an imputed interest rate applicable to the year in which the pledges are received. Amortization of the discount will be included in contribution revenue. Conditional contributions receivable are not included as support until the conditions are substantially met. The Organization records an allowance based on management's estimate of uncollectible amounts.

Publications Inventory. Publications inventory consists of books, maps, charts and other publications valued at the lower of cost or market. Cost is determined by the first-in, first-out method.

Property and Equipment. All property and equipment is stated at cost or if donated, at fair value at the date of transfer, and depreciated using the straight-line method over estimated useful lives which range from three to forty years. Expenditures for property and equipment that exceed \$5,000 are capitalized. Depreciation expense for the years ended June 30, 2021 and 2020 was \$147,627 and \$151,437, respectively.

Long-Lived Assets. The Organization reviews its long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of the asset may not be recovered. The Organization looks primarily to the undiscounted future cash flows in its assessment of whether or not long-lived assets have been impaired.

Collections and Works of Art. The Organization has various collections and works of art that are on exhibit at the headquarters building. Collection items acquired through purchase or donation are not capitalized. Contributions of collection items are not recognized in the statements of activities. Proceeds from sales or insurance recoveries are classified on the statements of activities based on the absence or existence and nature of donor-imposed restrictions.

Revenue Recognition. The Organization recognizes revenue based on a five-step model in accordance with Topic 606. The Organization identifies a contract with the customer, identifies the performance obligations, determines the transaction price, allocates the contract transaction price to the performance obligations, and recognizes the revenue as the performance obligation is satisfied.

The Geological Society of America, Inc. and The Geological Society of America Foundation, Inc.

Notes to Combined Financial Statements

June 30, 2021 and 2020

Note 1 – Summary of Significant Accounting Policies (continued)

The Organization's revenues from contracts with customers are comprised of publication sales, conference and meeting fees, and membership dues. Revenue is recognized upon transfer of services to customers in an amount that reflects the consideration that is expected to be received in exchange for those services. Recognition of revenue is as follows:

Publication Sales. The Organization sells books and other individual publications as well as subscriptions and periodicals. The customer typically pays for one time purchases at the time the order is submitted. The Organization recognizes the revenue at fulfillment, which is generally near the date of order submittal. Subscription customers pay fees in advance of the subscription period. The Organization recognizes revenue ratably over the course of the subscription period as the performance obligation is fulfilled.

Meetings. Meeting fees are generally billed and received in advance of the event. Any amounts received prior to the start of the event are recorded as deferred revenue (a contract liability). Revenue is recognized at the point in time in which the event occurs, which satisfies the Organization's performance obligation.

Membership Dues. Membership dues are billed to members in advance of the membership period. Any amounts received are deferred and recorded as deferred revenue (a contract liability) and are recognized as revenue ratably over time, in the period in which the dues apply. The Organization satisfies its performance obligations related to membership dues by providing access to the Organization's resources and activities on an annual basis.

Contributions. Contributions received are recorded as with donor restriction or without donor restriction, depending on the existence or nature of any donor restrictions.

The Organization distinguishes between contributions received for each net asset category in accordance with donor-imposed restrictions. The Organization complies with established standards for external reporting by not-for-profit organizations, which requires that resources be classified for reporting purposes into two net asset categories according to externally (donor) imposed restrictions. When a restriction expires, net assets are reclassified from net assets with donor restrictions to net assets released from restrictions in the statement of activities.

Grants and Awards. Grants and awards are recorded as expenses when the recipients are notified.

Functional Allocation of Expenses. The costs of providing the various programs and activities have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the program and supporting services benefitted. Salaries and related fringe benefits are allocated to all services based on actual time expended. Allocations of certain overhead costs are also allocated to services on a pro-rata basis of total direct expenses incurred.

The Geological Society of America, Inc. and The Geological Society of America Foundation, Inc.

Notes to Combined Financial Statements

June 30, 2021 and 2020

Note 1 – Summary of Significant Accounting Policies (continued)

Shipping and Handling Costs. Shipping and handling charges are included in revenues and the related costs are charged to various programs and activities on a functional basis in the combined statement of activities.

Income Taxes and Change in Estimate. The Society is exempt from income tax under Section 501(c)(3) of the Internal Revenue Code except for amounts representing unrelated business income. The Foundation is exempt from income tax under Section 501(c)(3) of the Internal Revenue Code and has been classified as an organization other than a private foundation under Section 509(a). As such, donors are entitled to a charitable deduction for their contribution to both the Society and Foundation.

The Organizations utilize the provisions of ASC 740, pertaining to accounting for uncertainty in income taxes. The pronouncement requires the use of a more-likely-than-not recognition criteria before and separate from the measurement of a tax position. An entity shall initially recognize the financial statement effects of a tax position when it is more likely than not, based on the technical merits, that the position will not be sustained upon examination. With respect to the Organizations, this would primarily relate to the determination of unrelated business taxable income, and to the maintenance of its tax exempt status.

Management has evaluated the adopted policies and procedures that have been implemented to provide assurance that income is properly characterized and activities that jeopardize its tax exempt status are within limits established under existing tax code and regulations. Management has determined the effects of uncertain tax positions are not material to the Organizations for recognition or disclosure in the accompanying financial statements and, accordingly, no income tax liability has been recorded for uncertain income tax positions in the accompanying financial statements.

All income tax years open for examination are subject to taxation at corporate tax rates. Additionally, penalties and interest may be assessed on income taxes that are delinquent.

Subsequent Events. Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 4, 2021, which is the date the financial statements were available to be issued.

The Geological Society of America, Inc. and The Geological Society of America Foundation, Inc.

Notes to Combined Financial Statements

June 30, 2021 and 2020

Note 2 – Availability and Liquidity

The Organization has \$9,856,190 and \$9,592,233 of financial assets available to be used within one year of June 30, 2021 and 2020, respectively. Additionally, the Organization has a line of credit with available credit totaling \$300,000 at June 30, 2021 and 2020. The Organization has a significant balance of net assets with donor restrictions that are earmarked for programs which are ongoing, major, and central to the its annual operations to be available to meet cash needs for general expenditures. Additionally, the Organization has invested it's significant reserves into long term investments, that could be liquidated if necessary. Of the long term investments, \$23,068,365 and \$16,693,601 are without donor restrictions and could be used to meet general operating needs if liquidated.

Note 3 – Accounts Receivable and Contract Liabilities

Accounts receivable consists of amounts invoiced from customers for reimbursable costs due on federal grant agreements and amounts due from sales of the Organization's products and services for which the Organization has met all performance obligations. Deferred revenue (contract liabilities) consist of amounts received in advance from customers for meeting registrations, membership dues, and publication subscriptions for which the Organization has not fully satisfied the related performance obligations. The balances are as follows as of June 30:

	<u>2021</u>	<u>2020</u>
Accounts receivable, beginning of year	\$ 749,778	\$ 656,749
Accounts receivable, end of year	\$ 783,774	\$ 749,778
Deferred revenues, beginning of year	\$ 903,927	\$ 1,658,613
Deferred revenues, end of year	\$ 984,494	\$ 903,927

Note 4 – Investments

The Organization's fair value hierarchy for those investment assets measured at fair value on a recurring basis is as follows at June 30:

	<u>2021</u>	<u>2020</u>
Quoted Prices in Active Markets for Identical Assets (Level 1)		
Mutual funds:		
Domestic fixed income	\$ 13,728,427	\$ 13,341,421
Domestic equity	33,543,653	23,336,321
International	5,369,695	3,970,046
Money market funds	182,099	2,507,063
	<u>52,823,874</u>	<u>43,154,851</u>
Investments measured at net asset value	<u>17,678,672</u>	<u>13,222,437</u>
Total investments at fair value	<u>\$ 70,502,546</u>	<u>\$ 56,377,288</u>

The Geological Society of America, Inc. and The Geological Society of America Foundation, Inc.

Notes to Combined Financial Statements

June 30, 2021 and 2020

Note 4 – Investments (continued)

Investments are presented on the statement of financial position as follows at June 30:

	<u>2021</u>	<u>2020</u>
Investments	\$ 8,035,999	\$ 7,433,520
Long-term investments, unrestricted	23,068,365	16,693,601
Long-term investments, restricted	39,398,182	32,250,167
	<u>\$ 70,502,546</u>	<u>\$ 56,377,288</u>

The Organization has invested \$2,102,787 in limited real estate partnerships with a total commitment of \$3,000,000. The limited real estate partnership may make capital calls as needed.

The Organization has invested \$7,501,401 in private equity portfolio funds with a total commitment of \$10,650,000. The private equity portfolio funds may make capital calls as needed.

Changes in Fair Value Levels. The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Organization evaluated the significance of transfers between levels based upon the nature of the financial instruments and size of the transfer relative to total net assets available for benefits. For the year ended June 30, 2021 and 2020, there were no significant transfers in or out of hierarchy levels.

Fair Value of Investments in Entities that Use NAV

The following table summarizes investments measured at fair value based on NAV per unit/share as of June 30, 2021.

<u>Investment</u>	<u>Fair Value as of June 30, 2021</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency</u>	<u>Redemption Notice Period</u>
Pooled private investment company funds	\$ 2,800,328	None	Monthly, Quarterly, Semi-annually	60 days for monthly, 90 days for quarterly, and 100 days for semi-annual
Real estate funds	\$ 3,189,080	\$ 897,213	Quarterly	30 and 60 days
Private equity portfolio funds	\$ 11,689,264	\$ 3,148,599	None	None

The Geological Society of America, Inc. and The Geological Society of America Foundation, Inc.

Notes to Combined Financial Statements

June 30, 2021 and 2020

Note 4 – Investments (continued)

The following table summarizes investments measured at fair value based on NAV per unit/share as of June 30, 2020.

Investment	Fair Value as of June 30, 2020	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled private investment company funds	\$ 4,899,374	None	Monthly, Quarterly, Semi-annually	60 days for monthly, 90 days for quarterly, and 100 days for semi-annual
Real estate funds	\$ 2,977,467	\$ 1,143,662	Quarterly	30 and 60 days
Private equity portfolio funds	\$ 5,345,596	\$ 2,861,389	None	None

Note 5 – Contributions Receivable and Concentrations

The Foundation has contributions receivable with expected collections as follows as of June 30:

	2021	2020
Due in less than one year	\$ 88,524	\$ 97,271
Due in one to five years	-	8,520
Less unamortized discount	-	(794)
	\$ 88,524	\$ 104,997

As of June 30, 2021 and 2020, a single donor accounted for 35% and 39% of contributions receivable, respectively.

Note 6 – Publications Inventory

Publications inventory consisted of the following at June 30:

	2021	2020
Finished goods	\$ 110,225	\$ 162,672
Work in process	136,701	39,507
	\$ 246,926	\$ 202,179

The Geological Society of America, Inc. and The Geological Society of America Foundation, Inc.

Notes to Combined Financial Statements

June 30, 2021 and 2020

Note 7 – Property and Equipment

Property and equipment consisted of the following at June 30:

	2021	2020
Land	\$ 428,065	\$ 428,065
Land improvements	105,007	105,007
Headquarters building and improvements	4,566,054	4,559,742
Furniture and equipment	1,243,443	1,233,003
	<u>6,342,569</u>	<u>6,325,817</u>
Less accumulated depreciation	(4,569,072)	(4,411,004)
Net property and equipment	<u>\$ 1,773,497</u>	<u>\$ 1,914,813</u>

Note 8 – Line of Credit

The Society has a \$300,000 line of credit agreement with JP Morgan Chase Bank, N.A. with no outstanding borrowings as of June 30, 2021 and 2020. Advances under agreement bear interest at the bank's index rate plus 0.25%. The agreement is collateralized by all property and matures in January 2022.

Note 9 – Functional Expenses

Expenses by functional classification for the year ended June 30, 2021 consist of the following:

	Programs	Fundraising	General and Administrative	Total
Wages	\$ 1,292,770	\$ 128,426	\$ 2,734,750	\$ 4,155,946
Publications cost	1,201,929	-	-	1,201,929
Contract services	600,080	-	429,284	1,029,364
Grants, awards	984,848	-	-	984,848
Travel	8,161	-	628	8,789
Benefits	226,365	13,269	93,063	332,697
Payroll taxes	86,439	8,974	183,695	279,108
Depreciation	17,184	-	130,443	147,627
Rent	8,655	-	45,751	54,406
Legal	2,893	8,826	56,040	67,759
Advertising	17,025	-	2,892	19,917
Allocated to programs	972,492	-	(972,492)	-
Other	406,467	50,225	98,700	555,392
	<u>\$ 5,825,308</u>	<u>\$ 209,720</u>	<u>\$ 2,802,754</u>	<u>\$ 8,837,782</u>

The Geological Society of America, Inc. and The Geological Society of America Foundation, Inc.

Notes to Combined Financial Statements

June 30, 2021 and 2020

Note 9 – Functional Expenses (continued)

Expenses by functional classification for the year ended June 30, 2020 consist of the following:

	Programs	Fundraising	General and Administrative	Total
Wages	\$ 1,410,161	\$ 170,330	\$ 2,861,814	\$ 4,442,305
Publications cost	1,367,057	-	-	1,367,057
Contract services	831,923	-	506,203	1,338,126
Grants, awards	1,085,907	-	-	1,085,907
Travel	320,126	11,997	76,858	408,981
Benefits	261,588	19,405	98,791	379,784
Payroll taxes	104,909	12,937	209,089	326,935
Depreciation	17,627	-	133,810	151,437
Rent	8,919	-	52,459	61,378
Legal	32,226	1,917	40,455	74,598
Advertising	15,990	-	21,593	37,583
Allocated to programs	1,254,338	-	(1,254,338)	-
Other	892,266	96,492	298,459	1,287,217
	<u>\$ 7,603,037</u>	<u>\$ 313,078</u>	<u>\$ 3,045,193</u>	<u>\$ 10,961,308</u>

Note 10 - Leasing Activities and Subsequent Event

Operating Leases. The Society leases equipment under noncancelable operating leases with monthly payments totaling \$2,819. An additional lease began in July 2021. The leases expire through March 2025, at which time the equipment may be purchased for its fair value. Rent expense and related charges under noncancelable operating lease agreements totaled \$54,506 and \$61,378 for the years ended June 30, 2021 and 2020, respectively.

Future minimum payments required under the noncancelable operating lease agreements are as follows at June 30, 2021:

Year	Amount
2022	\$ 19,406
2023	17,139
2024	17,139
2025	6,636
	<u>\$ 60,320</u>

The Geological Society of America, Inc. and The Geological Society of America Foundation, Inc.

Notes to Combined Financial Statements

June 30, 2021 and 2020

Note 11 – Endowment Funds

General. The Organization's Endowment Funds were established by action of the Society's Board of Councilors and Foundations' Board of Trustees to be maintained in perpetuity. The Endowment Fund includes donor-restricted funds and may be utilized for either specific purposes or general operating use. As required by accounting principles generally accepted in the United States of America (GAAP), net assets associated with Endowment Funds, including funds designated by the Board to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

Interpretation of Relevant Law. The Organization Boards have interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Organization classifies as net assets restricted in perpetuity (a) the original value of gifts donated to the perpetual endowment and (b) the original value of subsequent gifts to the perpetual endowment.

The remaining portion of the donor-restricted endowment funds that is not classified in net assets restricted in perpetuity is classified as net assets available for expenditure until those amounts are appropriated for expenditure by the Organization in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the Organization considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- (1) The duration and preservation of the fund.
- (2) The purpose and intent of the Organization and the donor-restricted endowment fund
- (3) General economic conditions
- (4) The possible effect of inflation and deflation
- (5) The expected total return from income and the appreciation of investments
- (6) Other resources of the Organization
- (7) The investment policies of the Organization.

Funds with Deficiencies. From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or UPMIFA requires the Organization to retain as a fund of perpetual duration. In connection with the implementation of FASB ASU 2016-14, *Not-for-Profit Entities (Topic 958) – Presentation of Financial Statements of Not-for-Profit Entities*, generally accepted accounting principles require accumulated losses to be presented together with the funds to which they relate. These deficiencies result from unfavorable market fluctuations that may occur after the investment of perpetually restricted contributions and appropriation that was deemed prudent by the Board. As of June 30, 2021 and 2020, no funds had deficiencies.

Return Objectives and Risk Parameters. The Organization has adopted an investment policy for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowments while seeking to maintain the purchasing power of the endowment assets. Perpetually restricted assets are invested as a portion of the total Endowment Fund, which seeks to optimize the total rate of return to meet spending requirements of the Organization.

The Geological Society of America, Inc. and The Geological Society of America Foundation, Inc.

Notes to Combined Financial Statements

June 30, 2021 and 2020

Note 11 – Endowment Funds (continued)

The Endowment Fund also seeks sufficient flexibility to meet unanticipated demands and changing environments. The Endowment Fund is invested with a long-term strategy, which includes a balanced portfolio of equity, bonds, limited partnership, commodity funds, bank loans funds and temporary cash investments.

Strategies Employed for Achieving Objectives. To satisfy its long-term rate-of-return objectives, the Organization relies on a total return strategy on which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Organization targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

Spending Policy and the Relationship to Investment Objectives. The Society has a policy of appropriating for distribution each year 4% of the rolling 12 quarter moving average of total unrestricted investments on December 31st of the current fiscal year in which the distribution is planned if the adjusted unrestricted investments exceed one half of the budgeted annual operating expenses. The Foundation has a policy of appropriating for distribution each year a percentage, as determined by the Board of Trustees, of the fair value of a fund's net assets from two years prior to the current fiscal year. The distribution percentage determined by the Board of Trustees amounted to 5% in 2021 and 2020. In establishing this policy, the Organization considered the long-term expected return on the Endowment Fund. Accordingly, over the long term, the Society expects the current spending policy to allow its endowment to grow at an average of at least the Consumer Price Index annually and the Foundation expects the current spending policy to allow its endowment to grow at an average of 3% annually. This is consistent with the Organization's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term, as well as to provide additional real growth through new gifts and investment returns. Expenditures may be made through the Organization's operating budget on an annual basis.

The Geological Society of America, Inc. and The Geological Society of America Foundation, Inc.

Notes to Combined Financial Statements

June 30, 2021 and 2020

Note 11 – Endowment Funds (continued)

Endowment funds consisted of the following at June 30:

	2021	2020
Endowment net assets available for appropriation and subject to time restrictions under UPMIFA Society		
Pardee endowment, board designated	\$ 5,167,426	\$ 3,162,746
Foundation	7,889,587	3,977,030
Total time restricted endowments	13,057,013	7,139,776
Endowment net assets required to be retained in perpetuity either by explicit donor stipulation or by UPMIFA Society, Pardee endowment, board Designated, non-expendable	4,300,000	4,300,000
Society, Penrose endowment	3,884,385	3,884,385
Foundation	13,538,763	12,918,371
Total perpetually restricted endowments	21,723,148	21,102,756
Total endowment fund net assets	\$ 34,780,161	\$ 28,242,532

The Geological Society of America, Inc. and The Geological Society of America Foundation, Inc.

Notes to Combined Financial Statements

June 30, 2021 and 2020

Note 11 – Endowment Funds (continued)

The following summarizes the changes in endowment net assets for the years ended June 30, 2021 and 2020:

	With Donor Restrictions		Total
	Available for Appropriation	In Perpetuity	
Endowment net assets, July 1, 2019	\$ 7,846,636	\$ 19,931,637	\$ 27,778,273
Interest income, net of fees	677,371	-	677,371
Net realized and unrealized losses	(705,031)	-	(705,031)
Contributions	96,426	999,069	1,095,495
Transfers of funds from Sections and Divisions	-	10,000	10,000
Interfund transfers and reclassifications	-	162,050	162,050
Amounts appropriated for expenditure	(775,626)	-	(775,626)
Change in endowment net assets	(706,860)	1,171,119	464,259
Endowment net assets, June 30, 2020	7,139,776	21,102,756	28,242,532
Interest income, net of fees	1,101,421	-	1,101,421
Net realized and unrealized gains	5,498,762	-	5,498,762
Contributions	294,497	471,782	766,279
Transfers of funds from Sections and Divisions	-	5,000	5,000
Interfund transfers and reclassifications	-	143,610	143,610
Amounts appropriated for expenditure	(977,443)	-	(977,443)
Change in endowment net assets	5,917,237	620,392	6,537,629
Endowment net assets, June 30, 2021	\$ 13,057,013	\$ 21,723,148	\$ 34,780,161

The Geological Society of America, Inc. and The Geological Society of America Foundation, Inc.

Notes to Combined Financial Statements

June 30, 2021 and 2020

Note 12 – Restricted Net Assets

Net assets with donor restrictions, listed by purpose, as of June 30:

	2021	2020
<u>Society</u>		
Available for appropriation		
Research, study and education	\$ 5,167,426	\$ 3,162,746
Restricted in perpetuity		
Pardee endowment, board designated, non-expendable	4,300,000	4,300,000
Penrose endowment	3,884,385	3,884,385
	13,351,811	11,347,131
 <u>Foundation</u>		
Available for appropriation		
Research grants and awards	5,771,414	3,061,541
Travel support	1,764,276	1,295,447
Other GSA program support	3,777,246	2,526,127
Restricted in perpetuity		
Research grants and awards	8,576,212	8,184,799
Travel support	632,981	611,972
Other GSA program support	4,332,071	4,121,601
	24,854,200	19,801,487
Total net assets with donor restrictions	\$ 38,206,011	\$ 31,148,618

Note 13 - Commitments

Meeting Reservation Commitments. The Society has entered into various contracts totaling \$7,939,253 for reservation of meeting and convention area space for its annual meetings, to be held through October 2024. The maximum penalty for cancellation of these contracts at June 30, 2021 totaled \$3,560,221.

The Geological Society of America, Inc. and The Geological Society of America Foundation, Inc.

Notes to Combined Financial Statements

June 30, 2021 and 2020

Note 14 - Related Party Transactions

The Organization has transactions that consist of transfers between the Foundation and the Society for support of and investment in future advancement of the geosciences. All significant inter-organizational accounts and transactions are eliminated in combination. The detail of the inter-organizational transactions prior to elimination are as follows for the years ended June 30:

	<u>2021</u>	<u>2020</u>
Grants and awards		
Foundation program grants to Society	\$ 1,252,670	\$ 1,047,463
Society Sections and Divisions transfers to Foundation	6,500	10,000
	<u>\$ 1,259,170</u>	<u>\$ 1,057,463</u>
Supporting services		
Society funding of Foundation payroll	\$ 230,676	\$ 230,676
Society funding of Foundation benefits	72,240	72,240
Society funding of Foundation overhead	129,500	129,500
	<u>\$ 432,416</u>	<u>\$ 432,416</u>

Note 15 – Retirement Plan

The Organization has a qualified 403(b) defined contribution plan. The plan is available to employees with at least six months of service. All contributions to the plan, including those made by the Organization, are fully vested to the employee. The Organization's contributions to the plan totaled \$290,157 and \$327,076 for the years ended June 30, 2021 and 2020, respectively.

Note 16 – Risk and Uncertainty

In March 2020, the World Health Organization declared the outbreak of the COVID19 pandemic. The pandemic has continued into 2021. In response to the crisis, the federal, state, and municipal governments have enacted various policies to curtail group gatherings until the risk has diminished. Both the United States and the global economy have been negatively impacted. Significant uncertainties may arise with respect to potential shutdowns of operations or government orders to cease activities, loss of donors or funding, inability to operate, or employee shortages, claims for business interruption insurance, etc. At this time, no reliable estimate of the ultimate effect of the pandemic can be made.

**Independent Auditor's Report on Internal Control over Financial Reporting
and on Compliance and Other Matters Based on an Audit
of Financial Statements Performed in Accordance with
Government Auditing Standards**

Council
The Geological Society of America, Inc.
Boulder, Colorado

We have audited, in accordance with the auditing standards generally accepted in United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of The Geological Society of America, Inc. (a nonprofit organization) which comprise the statement of financial position as of June 30, 2021, and the related statements of activities, changes in net assets, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated October 4, 2021. The financial statements of The Geological Society of America Foundation, Inc. were not audited in accordance with *Government Auditing Standards* and accordingly this report does not include reporting on internal control over financial reporting or instances of reportable noncompliance associated with The Geological Society of America Foundation, Inc.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered The Geological Society of America, Inc.'s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of The Geological Society of America, Inc.'s internal control. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether The Geological Society of America, Inc.'s financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance for Each Major Program and on Internal Control Over Compliance Required by the Uniform Guidance

Council
The Geological Society of America, Inc.
Boulder, Colorado

Report on Compliance for Each Major Federal Program

We have audited The Geological Society of America, Inc.'s compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Society's major federal programs for the year ended June 30, 2021. The Society's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of The Geological Society of America, Inc.'s major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*. Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Geological Society of America, Inc.'s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of The Geological Society of America, Inc.'s compliance.

Opinion on Each Major Federal Program

In our opinion, The Geological Society of America, Inc. complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

Report on Internal Control over Compliance

Management of The Geological Society of America, Inc. is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above.

In planning and performing our audit of compliance, we considered The Geological Society of America, Inc.'s internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of The Geological Society of America, Inc.'s internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Notes to Schedule of Expenditures of Federal Awards

Year ended June 30, 2021

Method of Accounting

The schedule of expenditures of federal awards has been prepared on an accrual basis. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts in or used in the preparation of the financial statements. The Organization has not elected to charge the de minimis rate of 10% of modified total direct costs (MTDC).
