

Impress for Success at GSA's Annual Meeting Webinar

by Patrick McAndless, P.Geo., FGC

Wednesday, 11 October 2017

11 a.m. MDT

About the Webinar

“Impress for Success” is a guide to successfully navigating and getting the most out of your GSA Convention experience. This pre conference webinar will give you the tricks and tips to be effective with your networking and follow up with prospective companies and organizations. You will learn to develop a “market strategy” including creating a unique business card, developing an effective networking plan and implementing a solid follow up protocol. This webinar aligns with our goal at GSA is to ensure our student members enjoy and benefit from their convention experience.

About the Presenter

Patrick McAndless, P.Geo., FGC

After 45 enjoyable years as a professional geoscientist in the mineral exploration industry, Patrick has turned his passion for geoscience and mining towards helping student's transition from academia to the work place. He has given career development lectures, workshops and webinars on a volunteer basis at over 150 colleges and universities across Canada, the US, Europe and South America. When he is not mentoring students and graduates, Patrick does presentations on geology and mining in the elementary schools and talks about careers in mining to secondary school students. His brand statement on his website “Geodude Corner” says it all: “Helping

Students and Professionals Discover Their Greatness”.
