CALL FOR EDITOR
ENVIRONMENTAL & ENGINEERING GEOSCIENCE

GSA is soliciting applications and nominations for a science co-editor for Environmental & Engineering Geoscience (E&EG) with a term of 4 years beginning January 2021. Duties include: ensuring stringent peer review and expeditious processing of manuscripts; making final acceptance or rejection decisions after considering reviewer recommendations; and, along with your co-editor, setting the editorial tone of the journal. E&EG editors also solicit submissions to the journal through interacting with colleagues at meetings and through organizing special issues.

Research interests that complement those of the continuing editor include hydrogeology, low-T geochemistry, geomorphology, and/or environmental geophysics.

To Apply: Submit a letter detailing how your experience (including editorial experience) qualifies you for this position, and a curriculum vitae to Jeanette Hammann, jhammann@geosociety.org. The GSA Publications Committee will review applications at its spring 2020 meeting. GSA encourages applications from all qualified persons and is committed to diversity.

Editors work out of their current locations at work or at home. The positions are considered voluntary, but GSA provides an annual stipend and funds for office expenses.

DEADLINE: First consideration will be given to nominations or applications received by 15 March 2020.
